PREFACE.

We trust no apology is needed in presenting the FORTY-THIRD EDITION, OF THOMPSON'S COIN CHART MANUAL to the public. We therefore call our patrons' attention to the special features of this edition. The values have been carefully revised and in several cases altered, great care being taken to give the official quotations for all the new pieces inserted. To facilitate reference an index has been added, and all the gold coins colored yellow, which will be found very convenient for brokers and others making rapid reference. We have received communications from several brokers, stating that the values of the pieces have been overrated. In reply, we would remind them that we do not profess to quote the prices they are to pay, but give the intrinsic value of coins of full weight of the designs given, the values being taken from assays conducted at the U. S. Mint. In regard to foreign gold we quote the prices which ought to be realized in U. S. gold coin if sent to the Mint for coinage.

Persons wishing to sell a few pieces of any of the coins here represented can only realize about ninety per cent. of the prices quoted. This reduction is owing, partly to short weight caused by the attrition to which the coins have been subjected in circulation, and the consequent loss, the balance being the charges on the transaction.

We shall be specially obliged to brokers and others who may favor us with specimens of *newly issued* foreign gold or silver coins, for which a fair per centage over their market value will be cheerfully paid.

Many brokers may not be aware that the following U. S. coins, on account of their scarcity, command a considerable premium, varying according to their state of preservation. Our publishers will always pay from 25 to 500 per cent. over the face value for those contained in the following list :

DOLLARS. 1794, 1804, 1838, 1839, 1851, 1852.

HALF DOLLARS. 1794, 1796, 1797, 1815.

QUARTER DOLLARS. 1823, 1827.

DIMES. 1796, 1797, 1798, 1800, 1801, 1802, 1803, 1804, 1809, 1811, 1822, 1824.

HALF DIMES. 1794, 1795, 1796, 1797, 1800, 1801, 1802, 1803, 1805.

THREE CENT PIECES. 1855.

COPPER CENTS. 1793, 1796, 1799, 1804, 1806, 1809, 1811, 1813.

NICKLE CENT. 1856.

HALF CENTS. 1793, 1796, 1802, 1811.

Communications to the editor should be addressed to him, care of SCOTT & Co., 146 Fulton Street, New York City.

AMERICAN & FOREIGN COPPER COINS.

This catalogue gives the selling price of the various series of coins of which it treats, the text being profusely illustrated with engravings of the rarer pieces, to enable the collector to determine their nationality and date of issue. The value of the American coins is given in three degrees of preservation, which will be found a valuable feature of the work.

It will be found of great value to all NEWSDEALERS and STOREKEEPERS, as it gives the fictitious value of all American copper. By its means many small traders have made hundreds of dollars by selling coins taken in their stores, which they would otherwise have passed out in change. Price 25 cents, post free.

AMERICAN & FOREIGN SILVER COINS.

This handy manual is gotten up in the same style as the Copper coin catalogue, and is illustrated with well-executed engravings, of every American silver coin ever issued, and some of the most interesting foreign ones

Our remarks concerning the value of the Copper coin catalogue, will apply with still greater force to this, for as the silver coin which has been hoarded up for the last fifteen years, comes again into circulation, many rare and valuable pieces are sure to reward those, who take the time to look at the dates, before paying them away. It must not be thought that it is only the old pieces that are valuable, as, for instance, the publisher will pay \$5.00 for the silver dollar of 1854, and so with other comparatively recent dates.

Price 25 cents, post free. Or the two bound in one volume, with a supplement containing fac-similes, of a number of old Roman and Greek coins. Price 50 cents, post free.

THE COINAGES OF THE WORLD, ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

PRICE—CLOTH, \$2.50. HALF MOROCCO, \$3.50.

CRITIQUES.

The New York Times of December 27th, says:

“What every student of Coinages—not the mere collector of old coins—wants to know.”

The New York World of November 27th, says:

“Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference.”

The New York Evening Post of November 29th, says:

“A work of great interest to numismatists and collectors of coins. * * * The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries.”

The New York Daily Graphic of December 23d, says:

“Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference.”

The American Journal of Numismatics of January 1st, says:

“This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared.”

The Coin Collector's Journal of January 1st, says:

“This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Ægina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Græcia Magna to Rome, and so down through the Byzantine Empire to Medieval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of the world, and should be in every house.”

THE COATS OF ARMS OF THE WORLD.

(RUSSIA.)

Uncolored fac simile showing size.

This magnificent chart contains accurate representations of the armorial bearings of the nations of the world, all of which are beautifully and correctly emblazoned in gold and silver, and their true colors.

As a sheet for framing, it is an acquisition to any drawing room, and is indispensable in the library or study.

As a guide to determine the nationality of foreign coins or postage stamps, (most of which bear the issuing countries' arms), it will be found of great service. While cut up and inserted in stamp albums, they will be found to add much to the appearance of the page.

Printed on fine heavy paper for framing, or on the same quality of thin paper for inserting in albums. Price, 50c.

THE MERCHANT FLAGS OF THE WORLD.

AUSTRIAN-ITALY.

BRAZIL.

FINLAND.

Uncolored fac-similes, showing size and style.

"These brilliant colored Flags faithfully represent the emblems of the different nations of the earth, and as such are a great acquisition to any Album, while the exceedingly low price (25 cents) at which they are published, places them within the reach of all."

"This Chart containing many Flags never before published, has been collected with great care, and can be relied upon as being strictly accurate, and by its aid the nationality of any ship may be easily determined, as it gives the Flag of the NATION instead of the gorgeous piece of hunting which simply belongs to one family, and is seldom, if ever, seen out of their country."

"These sheets possess three great advantages (to the Collector) over any other we are acquainted with, which consist in the facts that there is only one Flag to each country: more nations represented than have heretofore been given, and only Flags of those countries which issue postage stamps. These we consider of great importance to those who buy them to put in albums, as they can use them all instead of having to throw away half the purchase. The colors are very brilliant, and withal correct, and being printed on very thin paper, the book is not swelled to an inordinate thickness."

Beautifully and correctly printed in five colors on fine heavy paper for framing, or thin paper for albums. Price only 25 cents

In ordering please state which paper is required.

The above *fac-simile* of the International Stamp Album although reduced to one-quarter the size, gives a fair idea of the appearance of this new album. The pictures illustrating the designs of every series, make the inserting of the stamps in their proper places so plain, that the youngest child can not possibly make a mistake. It contains a space for every stamp including some series which have been announced, but not yet issued, such as Finland, Phillippine Islands &c., ample space for new issues, and is printed, even the cheap editions, on the heaviest paper.

The Fiend of the Rocky Mountains. (Pantomime.)

Without counting the endless pleasure to be derived from acting or witnessing the performance of **Seltz's American Boys' Theatre**, the fitting up, mounting and performing these Plays will be found to give more pleasure and profit for the money than the same amount expended in any other way. All the marvellous scenic effects of the modern stage can be successfully imitated, by any boy of ordinary ability, on these miniature stages, by the exercise of a little study and patience. They have been proved of incalculable benefit in developing a boy's talent, in the various faculties called into play. His mechanical invention is brought out in constructing his theatre; his artistic genius is improved in carefully coloring the characters and scenery, and his elocution perfected in reading the speeches of the different actors.

Scott & Co. would caution the public against purchasing worthless imitations, as the Plays of SELTZ'S AMERICAN BOYS' THEATRE are the only miniature theatricals ever published, giving full directions for working, &c. Every piece of this admirable series is put together and tested by professionals before being issued to the public, insuring the correct working of every piece.

Published only by SCOTT & CO., 146 Fulton Street, New York, where everything connected with Plays can be had, wholesale and retail. The Plays can also be had of all Booksellers and Newsdealers in the U. S., and wholesale of THE AMERICAN NEWS COMPANY. Be sure and ask for and take none but SELTZ'S EDITION.

AWARDED BY

American Institute,

of New York,

November, 1871

At a very heavy outlay for machinery, made expressly for the purpose, we have recently made such improvements in the "NATIONAL SAFETY CHECK PUNCH" as warrants us in asserting that it is now perfect. The FIGURES are CUT by HAND on the plungers, which are of SOLID STEEL; and we are enabled to reduce the price from \$50 to \$25. This Punch CUTS the figures entirely from the paper, and renders alteration an impossibility. It is recommended by over five hundred of our leading Banks, Bankers and Merchants

In order to make a positively unalterable Check or Draft, it is necessary to remove the figures entirely from the paper. No ink, Tinted Paper or Perforation is positive security against alteration in the hands of the Forger. We claim that THE NATIONAL SAFETY CHECK PUNCH is the only thing that insures positive protection. It is handsomely made, and with ordinary use in cutting paper will last a lifetime.
